

HR Accreditation- Adding Value to Your Profession

HR has been an established profession for a long time. The past few years have seen significant changes in the perception and outlook of HR by corporate leaders. Today, HR is viewed as a key player in driving corporate success and customer satisfaction, and no longer just a support function. It is becoming an increasingly vital function in many organisations and businesses.

SHRI recognises and acknowledges the significant contributions the HR profession has made, and continues to make, to organisations and businesses. It is time that the HR profession needs to establish itself as a brand – through accreditation so as to raise its recognition, standing and reputation. **To do precisely that, SHRI has taken the initiative to establish HR standards through accrediting HR practitioners in Singapore so as to raise the profession to meet avowed standards and practice.**

To-date, we have more than 65 accredited HR Professionals with the status of HR Associate, HR Professional and Senior HR Professional since August 2006. We would like to invite you to be part of the HR movement in Singapore – to be accredited as a HR Professional.

The HR Accreditation Handbook will be made available at SHRI. To receive a copy of the Accreditation Handbook, kindly fax the response slip appended below.

I look forward to your application for The HR Accreditation.

Yours sincerely,

David Ang, MSHRI, SHRP
Executive Director
Singapore Human Resources Institute
